Versatile and technically skilled **Videographer & Video Editor** with a BA in Film & Television and hands-on experience delivering high-quality broadcast content for MultiChoice. Proficient in end-to-end video production, from camera operation and cinematic lighting setup to professional post-production grading and editing. Adept at managing fast-paced on-set environments, optimizing visual aesthetics, and executing creative briefs under tight deadlines.

WORK EXPERIENCE

Freelance Photographer & Videographer

Johannesburg, Gauteng

2019 – Present

- End-to-End Production: Pitched, captured, and delivered high-quality photo and video content for diverse commercial clients and corporate events.
- Post-Production Editing: Advanced visual storytelling through precise editing, color correction, and sound design using Adobe Premiere Pro and DaVinci Resolve.
- Project Delivery: Managed client communications, creative conceptualization, and asset delivery under strict, fast-moving deadlines.

Technical Assistant (Camera & Lighting)

University of the Witwatersrand - Braamfontein, Gauteng

September 2024 - Present

- Visual Execution: Supervised camera and lighting department configurations, maintaining optimal visual style and exposure for university-backed film shoots.
- Equipment Operations: Managed the technical setup, breakdown, and asset tracking of professional cinema equipment, lenses, and grip gear.

On-Set Production Assistant / Camera Support

Phanda Studios - Braamfontein, Gauteng,

August 2024 - September 2024

- Technical Assistance: Worked closely with camera and lighting crews to execute exact framing, rigging, and equipment layouts required by directors.
- Risk Management: Maintained rigid safety and configuration standards for structural mounts, overhead diffusion frames, and sensitive camera support rigs.

Production & Technical Assistant

MultiChoice - Randburg, Gauteng

February 2024 - May 2024

- Project Portfolio: [iTender](#), [Mjolofofontein](#), [Mamela Margret](#), [uBab' Stivovo](#)
- Broadcast Operations: Provided critical on-set lighting and camera department support during major multi-camera television productions.

- Workflow Optimization: Facilitated smooth, rapid department communications and asset coordination to keep the shooting schedule strictly on time.
